

Why do you pray facing skywards?

Why do you pray facing skywards and cannot pray facing any Plaque (man-made objects)?

We pray facing skywards because the CREATOR created the entire universe. There is our Sun and there are stars. Man compared to our Earth is a speck of dust. Our Earth compared to our Sun is a speck of dust. Our Sun compared to the stars is a speck of dust. All the suns, moons, planets and stars combined together is a speck of dust compared to the size of the universe. The universe is a creation of the CREATOR.

Where is the CREATOR? The CREATOR is beyond this universe and beyond the Plane of Nothing. There are also multiple universes that overlap each other within the Plane of Nothing. The CREATOR is beyond the Plane of Nothing.

In the past, Xian Sheng told everyone that there are suns that overlap other suns. They probably thought that Xian Sheng was crazy. However, astronomer photographed two suns chasing each other in circles. They eventually merged into a peanut-like shape. Then they separate again, like two suns in a romantic love-making scene. Astronomers also question the behaviour of these suns. Yes, these are real.

A few years ago, astronomers discovered that our sun when compared to another sun is a speck of dust. That sun is 2000 times larger than our Sun. Imagine the intensity of the heat. BAITIANGONG followers are lucky as Xian Sheng had explained about these tens of years ago. Astronomers only discover about these recently.

Tens of years earlier, Xian Sheng had explained to BAITIANGONG followers that our earth is not the only earth that exists, but there are many other planets similar to our earth.

Two years ago, astronomers discovered that there are planets circling around their sun similar to our planet circling around our Sun.

If our planet has human life, there could be life there as well. If there is water here, there could be water there too as their sun is almost similar in size to our Sun. Their planet is slightly larger compare to our Earth, but the distance from their sun is similar to the distance between Earth and our Sun. Therefore, if we have trees and other elements, would those planets have them too?

It definitely has the same. In fact, Xian Sheng had already told the BAITIANGONG followers tens of years ago.

That is why the CREATOR is not as simple as that, even all the words in all the dictionaries combine together cannot describe the CREATOR. The CREATOR is the creator of everything and all and more than that. There are many things we do not know and have yet to understand. This is the CREATOR that we pray to.

Human beings are created by the CREATOR and HIS creation includes the universes and all elements within the Nothing are also created by the CREATOR. Example: all the suns, moons, planets, stars, the elements that are metal, wood, water, fire and earth.

If praying to this CREATOR is wrong, then Xian Sheng does not know what is right.

Xian Sheng taught us to pray to the CREATOR and let us know that praying to the CREATOR is a way for us to project the brain wave towards and beyond the Plane of Nothing. The CREATOR is beyond the Plane of Nothing.

This is the CREATOR that we kneel down and pray to. It will never be wrong to kneel and pray to the CREATOR of the universes and all and more than that. If this is wrong, then it would not be necessary for Xian Sheng to be here as a human. Jesus would not have to come here on earth and Prophet Muhammad would not have to come to this earth to preach about praying to the CREATOR to us. Xian Sheng hopes that we understand why we need to pray to the CREATOR.

*Xian Sheng's video 2IC-1996 dated 23/02/1996
41.00min - 46.50min*

Take Home Values

*The CREATOR — TIANGONG,
The CREATOR is not here with us,
but HIS consciousness is.*

*The CREATOR is not within this universe, HE
is beyond the Plane of Nothing.
Therefore, we need to face skyward when
praying to HIM.*

*Kneeling down to pray to the CREATOR
is the highest form of respect to HIM.*

*Jesus, Prophet Muhammad, Xian Sheng all
knelt down to pray to the CREATOR.
That's why we kneel down facing skyward
when praying to the CREATOR*

Take Home Values

*The CREATOR creates everything
and all and more than that.
There are many things we do not know and
have yet to understand.*

*Pray to the CREATOR is a method for us to
project our brain wave towards and beyond
the Plane of Nothing as the CREATOR is
beyond the Plane of Nothing*
